Application for the Python Developer Position

Dear Hiring Manager,

I am writing to apply for the Python Developer position at your company. I have completed my training in Python, Django, MySQL, HTML, CSS, and Flask. I am eager to begin my career and contribute to your organization.

During my learning, I developed projects that enhanced my problem-solving and programming skills. I am a quick learner, hardworking, and passionate about software development.

I would appreciate the opportunity to discuss my qualifications in an interview.

Thank you for your time and consideration.

Sincerely,

Kirtan Thakkar
